## Summary

I'm a software engineer who has 3 years of experience. I have several startup projects to help build systems on the frontend, backend, mobile and desktop application. Besides of that I also work as a freelancer on Upwork.

I have strong skills in Javascript/Typescript with several tools that I often use which is React, Next, React Native, Electron, Exspress, and Node. With these stacks I can create backend, frontend, mobile and desktop applications. some other stacks that I also master are Dart and Laravel using the Flutter and Laravel frameworks.
